CHICAGO.

Aside from the temporary effect of un-seasonable weather the prevailing condi-tions impart sustained strength to busi-

ness. No interruption appears in pro-duction of the leading industries, new demands come forward steadily and, with

the resumption of navigation to lower lake ports, transportation of freight is more extended. Commercial loans exhibit

the greatest aggregate yet attained here, but, while the tone is easier, the discount

rate may not decline appreciably until there is a further gain in deposits. Advices testify to spring merchandising

equaling expectations at most interior

centers, farm work well forward and at-

tention turning to extensive improve-ments. Distributive trade generally is upon an encouraging basis here and in the West and there is yet much activity

in the jobbing branches upon demands for textiles, footwear, clothing, furniture and

hardware. Some delays occur in forward-

ing general merchandise, due to scarcity in first hands, and road salesmen obtain good orders for summer staples, indicating that buyers have no loss of confidence in the future.

Manufacturing progress is unabated.

The capacity of most plants is exerted to
the limit, and the machinery and labor
employed exceeds all previous experience

Finds Manufacturers Practicing De-

"If this outrageous misrepresentation does not cease the department will publish a list indulging in this campaign of deception."

Secretary Wilson, of the department of agriculture, made this remark in an authorized statement Tuesday night regarding the fact that there had come to his knowledge information that a number of manufacturers of foods and drugs were freely advertining that the United States govern-

ment was guaranteeing their products. The secretary said that the serial number and guarantee by the pure food and drug act to be placed on food and drug products were being used by these manufacturers for this purpose. "The serial number," said Secretary Wilson, "is assigned to fix the responsibility where it belongsupon the manufacturers-and to protect innocent dealers who have a right under the law to rely upon his guarantee. It is the guaranty of the man-

ufacturer, not of the government." The secretary declared every effort would be made by the department to put a stop to these statements.

"I will do a little advertising myself," he said, "In behalf of the people. I am growing tired of seeing these untruthful statements on the advertising pages of the magazines, the walls of the New York subway and the advertising space of the street cars of the principal cities. Manufacturers who will deceive the public about the guaranty will lie about the quality of their product."

He added that the law would be administered fairly and no honest manufacturer need fear that the department will take "snap judgment" on him or harass him in any way.

POISON ON THE MONEY.

Bank Teller is Dangerously Ill from Infected Wound.

As the result of handling tainted money, former Assemblyman Harry D. Leavitt, of Trenton, N. J., is seriously ill at his home, suffering with blood poisoning.

Mr. Leavitt is paying teller and assistant cashier at the Mechanics bank. It has been necessary for him to handie a large number of bank notes daily, and in many cases the bank notes were unclean.

About a month ago Mr. Leavitt cut a small gash in his right hand with his penknife. He paid no attention to the wound and continued his work at the bank. A few days later the hand become swollen. A physician was consulted and he found the wound to be infected. Blood poisoning later developed, and Mr. Leavitt's recovery is

Some people are aroused over this turn of affairs, but the wiseacres of the town are saying that it is all a bluff and that the new road will ask the town for a bonus of several thousand dollars, and if secured will build a depot at Wausa. The general opin-ion seems to be that if the Hill interests are back of the new road it will be built in the near future.

INDIANS MAKE TROUBLE.

Too Many Return from Sloux City Carrying Little Brown Jugs.

For some time past there has been onsiderable comment on the number of Indians who make a trip to Sioux City and return in an intoxicated condition at Walthill. It is a most common happening to have a large number of Indians in this condition board the train at Sioux City laden with jugs and bottles of booze, all of which adds no small burden to the village authorities of the towns where they leave the trains, where they either fall off are are dragged off and left lying on the depot platform to be taken

At Walthill recently several staggered from the train. The procession ended by a brakeman dragging an old man out of the smoking car in a half naked condition and leaving him lying on the platform unable to assist himself, seemingly more dead than alive. At Winnebago the situation is considered more serious, the traffic being much heavier at that point, and under no control whatever, the town not having as yet been incorporated.

HUNTINGTON IN DEFENSE.

Nebraskan Accused of Land Fraud Heard in Own Behalf.

Thomas M. Huntington, principal defendant in the land fraud trial now going on before T. C. Munger, of the United States district court, while on the stand admitted locating numerous old soldiers on government land in Sheridan and Cherry counties, but denied any fraudulent intent. He said he never misrepresented the legal requirements to any homesteader. He denied having and previous arrangement with Richards and Comstock about leasing the land filed upon, but said he secured the leases himself and afterward sold them to Richards and Comstock and others.

Huntington was followed on the stand by Ami B. Tood, another of the defendants. He said he was formerly in the business of locating homesteaders, but denied all charges of misrepresentation, conspiracy or frauds.

Randolph Church Dedicated. The new Presblyterian church at Randolph was formally dedicated Sunday. The impressive ceremony was witnessed by 500 people, the church being crowded to the doors. Rev.
